Dear Annie

Your annual bicycle insurance is due for renewal on 21/06/2021. We've prepared a renewal quote based on your current policy which will cost £332.79 for the year.

This quote includes a 25%\* loyalty discount on your quote. If you were new to us today, it would cost you [insert undiscounted quote]. **Please note that this discount will also expire on [CoverStartDate].**

If you've been lucky enough to add to your fleet this year, you can add this to your policy at renewal and get 60% off that too. Remember that you are able to log in and adjust your policy all year round too.

## WE DON'T AUTO RENEW, SO YOU NEED TO ACT

### Renewing your cover is easy.

## A 5 STAR SERVICE

We took all of our claims in house in 2019, and feedback from customers who have had to claim through us has been exceptional. This is a testament to our dedicated claims team who have been working tirelessly over the past 18 months to bring you the very best claims experience.

If you need to claim on your policy, you will be able to speak to a knowledgeable cyclist who will look to repair or replace your bike as quick as humanly possible through our extensive trade network. If you don't believe us, here's what Jamaall and David had to say after we settled their claims.

### Great Service

Anyone would agree that coming off your bike is traumatic enough. Damage to yourself and your precious road machine. But I definitely have to thank the yellow jersey team for the early responses and genuinely helpful approach to handling my claim. I was quite surprised at how quickly they got back to me and sorted replacement parts etc.

I'd say all cyclists should be on board with this, great service all round and peace of mind.

And remember, that claiming on your policy will **not** affect your renewal price the following year.

\*The renewal discount cannot be used in conjunction with any other discount.

\*\*An annualised premium includes any adjustments you may have made during the year. For example; if the annual premium at the start of a policy was £300, but six months in a second bike was added, there would be an additional premium of £50. This represents an annual equivalent cost of £100. The total amount paid for last year's Insurance in the example was £350. The total annualised premium for the example is £400.
