SECURITY GUIDE

Locks and security are a crucial aspect of any **pedal cycle** insurance policy. To make it as easy as possible to understand **our** security criteria, **we've** included this handy guide and illustrations.

You must still refer to the relevant theft sections for the full terms and conditions.

PEDAL CYCLE LOCKS

Whenever **you** need to use a **pedal cycle** lock, it must be rated by Sold Secure. If **you're** not sure what grade **your** lock **yours** is, Sold Secure's website will tell **you**. The packaging on the lock typically displays the level too.

! REMEMBER

- For **pedal cycles** over £1,500, **you** must use a Sold Secure Gold, or Diamond rated lock.
- For **pedal cycles** £1,500 or under, **you** can use a Sold Secure Silver lock.
- **We cannot accept any pedal cycle lock that isn't rated by Sold Secure, even if a shop or website says the lock is 'super strong' or 'heavy duty'.**
- Accessory cables supplied with D-locks are not approved locks.
- Flexi-cable or combination locks are not **approved locks**.

✓ GETTING IT RIGHT

Secure the **approved lock** through the frame and both wheels to an **immovable object**

Two **approved locks** through each wheel and frame to an **immovable object**

✗ GETTING IT WRONG

The D-Lock attached to the **immovable object**, with only the accessory cable securing the **pedal cycle**.

The D-lock is only securing the wheel. The frame must be secured to an **immovable object**.

HOME, SHEDS, OUTBUILDINGS AND GARAGES

When we refer to **deadbolts** for **your** house, flat, shed, garage or outbuilding, this must be a lock that can only be locked by turning a key. **We** cannot accept sprung or night latches to secure any external doors.

✓ Approved Deadbolt

✓ Approved Deadbolt

✗ Unapproved Latch Lock

Sometimes sheds or outbuildings don't have **deadbolts**, and that's fine. If **you** use a padlock to secure the doors, this must be a closed shackled padlock, with a CEN 3 rating or higher. There must not be any screws on the structure or door that can be removed to gain access.

✓ Security Hinges
(no exposed screws)

✓ Hasp and Staple
(no exposed screws)

✗ Unsecured Hinge
(exposed screws)

✗ Unsecured Latch
(exposed screws)

✓ Door Defender

✗ No external override

Garage Doors

We get lots of questions about electric or 'up and over' garage doors. They're very convenient but also very straightforward to gain access to by forced entry. We've tried to standardise and simplify our approach to these types of doors.

Any electric or 'up and over' garage door must be approved by 'Secured by Design', the official police security initiative. There cannot be an external override capable of opening the door or shutters either.

Secured by Design

Police Preferred Specification

If **your** garage door doesn't meet this criteria, **you** must either use a door defender (above) or secure the **pedal cycles** to an **immovable** object through the frame with an **approved lock**. Any external security must also be in operation.

HOW SHOULD I VALUE MY BIKE?

Other insurers may have differing views on how to **value your** items. **You** may have even had a different cycling insurance policy in the past.

We have a consistent valuation method. **Our** examples below might help **you** if **you're** unsure after reading the definitions. Please follow **our** approach so we can settle **your** claims fairly.

A FEW VALUATION SCENARIOS WHEN BUYING A BIKE FROM NEW

Q1	I purchased my bike for £5,000 from a retailer in 2016 and have had no upgrades since; what's the value ?
A	The value is £5,000, i.e. the price you paid for it. ! Remember to include any pedals or upgrades you added at the time of purchase.
Q2	I purchased my bike for £2,000 from a retailer in 2018 and then spent £1,800 upgrading the wheels and saddle in 2019; what's the value ?
A	The valuation is the total price paid for the bike and the extra parts, i.e. you paid £2,000, and then spent £1,800 upgrading the wheels and saddle, you should value it at £3,800.
Q3	I purchased a bike worth £1,000 RRP for £600 in a sale; what's the value ?
A	It would be best if you insured it for the RRP at the time of purchase, i.e. £1,000. The invoice should show the discounted price.
Q4	I was gifted a bike worth RRP £3,000 in 2019; what's the value ?
A	The value of the bike is the RRP at the time of gifting, i.e. £3,000. This also includes if you won the bike as a prize in a competition. ! Remember to keep proof of the prize or evidence it was gifted.
Q5	I purchased an antique bike ridden by Eddy Merckx for £5,000 in 2012; what's the value ?
A	In this instance, you insure the bike for the value that an expert has calculated. You must provide photos of the bike and a copy of the valuation letter less than three years old to verify the value .
Q6	I built a bike up myself from parts. I paid a total of £4,500 for the frameset, wheelset groupset and finishing kit from various sources; what's the value ?
A	It would be best to insured it for £4,500 plus a little extra for the labour costs.

A FEW VALUATION SCENARIOS WHEN BUYING A USED BIKE

Q1	I purchased a bike from a friend for £750; what's the value ?
A	If you bought a bike from your friend for £750, you should insure it for £750. ! Remember to keep a copy of the receipt
Q2	I bought a bike for £500 on the internet, and then purchased a brand new wheelset for £1,000; what's the value ?
A	You should insure it for £1,500
Q3	My Aunt gifted me a second-hand bike; what's the value ?
A	If your Aunt has the receipt, e.g., she paid £450 on eBay, you should insure it for £450. ! If you don't know the price she paid, speak to our support team in advance to agree on a value.
Q4	My brother gifted me a second-hand bike, and I've since spent £700 upgrading the groupset; what's the value ?
A	If you know the price paid for the bike, add that to the new parts' price. ! If you're in doubt, confirm the value with our support team.
Q5	I paid £2,500 for an ex-demo / ex-display bike, but it's worth £5,000 RRP; what's the value ?
A	If you paid £2,500 for an ex-display bike, you should insure it for £2,500. This also includes buying bikes sold off by race teams at the end of a season.

CLAIMS

“**T**he reason you buy insurance; make sure you read this bit.”

HOW TO CLAIM

[Log into your account](#) on **our** website to claim online. Once **you** have submitted the information, **our** expert claims team will take it from there.

HOW WE CHOOSE TO SETTLE CLAIMS

For any **pedal cycle, accessories, helmet or clothing** that is lost or suffers **accidental or malicious damage** we will choose whether to:

- replace or repair the item or part
- pay the cost of replacing or repairing the item or part, up to the amount it would have cost **us** to replace or repair using **our** suppliers, or as a last resort
- make a cash payment

IT'S UP TO US

- **We** won't pay more than the amount it would have cost **us** to replace or repair via **our** suppliers.
- **We** do not have to use any **pedal cycle** dealer or distributor nominated or selected by **you**. However, if **your** preferred **pedal cycle** dealer or distributor will match the prices available to **us** and work with **us** directly, **we** will consider **your** request.
- **You** must accept that **we** may appoint a specialist, including carbon restoration experts, to investigate, repair and restore any **pedal cycle** claim on **our** behalf.
- **You** must retain any damaged **pedal cycles** for inspection unless **we** have advised otherwise.
- **You** must accept that in the event of repair, **we** are not liable for the loss of warranty.
- **We** reserve the right to decline any costs incurred by **you** before **our** team approves of **your** claim.
- If appropriate parts or replacement items are not available, **we** will pay the item's full cost, provided the sum insured is adequate.
- In the event of a partial or total loss, **we** will request the original parts from **you** prior to settlement of replacement parts, **accessories** or **pedal cycles**.
- **We** reserve the right to request **you** make use of a manufacturer crash replacement guarantee if available to **you**.

WHEELSETS AND GROUPSETS

If one wheel or part of a groupset is damaged (e.g. one shifter), and **we** can't repair or replace it with the same product of similar quality, specification and colour, **we** will at **our** discretion:

- replace the pair of items or set with an equivalent; or
- pay the cost of replacing the pair of items or set to the amount it would have cost **us** to replace the item using **our** own suppliers.

If no equivalent pair of items or set is available, **we** will pay the RRP at the time of purchase if purchased as new, or the current market **value** for the used part(s) if purchased second hand, providing the **sum insured** is adequate.

If **we** ask **you** to, **you** will have to give up the undamaged parts of the pair or set to **us** where the full replacement cost has been paid.

HELP US APPROVE YOUR DAMAGE CLAIM:

We are here to help and we've got **your** back! Below are some common reasons we've had to decline damage claims:

1

HELMETS AND CLOTHING

If **you** want **your helmets or clothing** covered, **you** need to add this to **your** policy. It is not covered as standard.

2

PHONES AND WATCHES

We will cover **your** smart phone or smart watch if it is damaged when being used to record the GPS of the ride. If it's just in **your** pocket, and is incidental to **your** cycling, **we** can't.

3

PROOF OF OWNERSHIP

The onus is on **you** to demonstrate ownership. The easiest way to do this is to take photos of the receipts, or save copies of e-receipts.

4

WHAT IS AN ACCIDENT?

You must be riding or using **your pedal cycle** at the time, and notice the damage being caused to **you** or **your pedal cycle**.

IF YOU'RE INVOLVED IN AN ACCIDENT:

1

Do not discuss whose fault the **accident** was or accept any responsibility.

2

Always exchange details with the other drivers/cyclists, including names, addresses, registration numbers and Insurer names and policy numbers.

3

If **you** have a camera available, and it is safe to do so, take photos of the vehicle positions before they are moved and the vehicle damage, as they may assist with establishing liability.

4

If anybody is injured or **you** do not exchange details at the scene, then report the matter to the police within 24 hours.

5

Do not answer directly to any correspondence received from any representatives of the other parties involved.

6

Ensure **your** claim is submitted to Yellow Jersey Claims via the online client area within 28 days.

HELP US APPROVE YOUR THEFT CLAIM:

We are here to help and **we've got your back!** Below are some common reasons **we've** had to decline theft claims from **home** or **insured locations**:

1

ACCESSORIES

If someone **ONLY** steals **your pedal cycle** computer or **your** lights, **we** can't cover that; the whole **pedal cycle** must be stolen. When **you** leave **your pedal cycle** in any location that is accessed by anyone other than **you** or **your family**, take **your accessories** with **you**.

2

ACCESSORY CABLES SUPPLIED WITH D-LOCKS

Accessory cables supplied with D-locks are not **approved locks**, and must not be used to secure **your pedal cycle** to an **immovable** object.

3

BIKE HANGARS

There is a big difference in the quality of storage units; some are much less secure than others and are not approved by **us**. If **you're** in any doubt about **your** storage unit, please contact **our** support team.

4

DEAD BOLTS

Every exit door on **your home** needs one. To close these locks, **you** have to turn a key, not just pull the door to on a latch. **Dead bolts** offer much higher security than a latch, which is why **we** insist on them.

5

EBIKES

If **your** battery or screen isn't lockable, **you** need to take these with **you** when **you** lock up **your pedal cycle** in any location that is accessed by anyone other than **you** or **your family**. **We** can't insure **these** items against theft, if they can be removed without force.

6

IMMOVABLE OBJECTS

Choose **your immovable** object carefully. A thief would require heavy machinery to break an **immovable** object, not just a spanner or a knife.

7

LOCK THE FRAME

You need to lock the **pedal cycle** frame with an **approved lock** directly to an **immovable** object. If **you** only lock the wheel, a thief doesn't need to break to a lock to take the **pedal cycle**.

8

PROOF OF OWNERSHIP

The onus is on **you** to demonstrate ownership. The easiest way to do this is to take photos of the receipts, or save copies of e-receipts.

9

SOLD SECURE

We only accept Sold Secure rated **pedal cycle** locks. Whilst **pedal cycles** under £1,500 can use a Silver rated lock, **we** always recommend a Gold or Diamond lock for all **pedal cycles**. Any **pedal cycle** over £1,500 must use a Gold or Diamond lock.

SECTION 3 - THEFT AWAY FROM AN INSURED LOCATION

WE WILL COVER YOU IF:	WE WILL NOT COVER YOU FOR:
<ul style="list-style-type: none">✓ you are riding or holding your pedal cycle✓ your pedal cycle is locked to an immovable object through the frame with an approved lock for less than 12 consecutive hours✓ your pedal cycle is temporarily locked within a vehicle for less than 12 hours since you last drove it, providing all security devices in operation and windows shut✓ your pedal cycle is lost or stolen when with an airline and you report it to the airline within 24 hours of discovering the loss	<ul style="list-style-type: none">✗ any of the cycling exclusions✗ theft of your pedal cycle when unattended and not locked with an approved lock✗ theft from a vehicle unless all doors and windows are shut, and all security devices are in operation. If there is a deadbolt, this must be used too

HELP US APPROVE THEFT CLAIMS WHEN OUT AND ABOUT:

We are here to help and we've got **your** back! Below are some common reasons we've had to decline theft claims when **you're** out and about.

1

ACCESSORY CABLES SUPPLIED WITH D-LOCKS

Accessory cables supplied with D-locks are not **approved locks**, and must not be used to secure **your pedal cycle** to an **immovable** object.

2

BIKE HANGARS

When locked up away from an **insured location**, hangars are simply an **immovable** object and must only be left for up to 12 hours at a time.

3

CHECKING ON YOUR BIKE

You can't leave **your pedal cycle** in one place for prolonged periods, but come back to check on it every 12 hours. Thieves know it's there, and they will likely return to steal it.

4

DETACHABLE ACCESSORIES

If someone just steals **your pedal cycle** computer or **your** lights, we can't insure against that; the whole **pedal cycle** must be stolen. When **you** stop at a café or the shops, take **your accessories** with **you** to prevent uninsured theft.

5

EBIKES

If **your** battery or screen isn't lockable, **you** need to take these with **you** when **you** lock up **your pedal cycle** in any location that is accessed by anyone other than **you** or **your family**. We can't insure **these** items against theft, if they can be removed without force.

6

IMMOVABLE OBJECTS

Choose **your immovable** object carefully. A thief would require heavy machinery to break an **immovable** object, not just a spanner or a knife.

7

IN A VEHICLE

You cannot store **your pedal cycle** in a vehicle for longer than 12 hours; **you** cannot check back in on it to reset the clock. Whenever **you** are at **home**, **you** must remove it from **your** vehicle.

8

ON A VEHICLE

A **pedal cycle** rack on the rear or roof of a vehicle is like any other **immovable** object. They must be locked with an **approved lock**. The rack itself must also be secured to the vehicle. If a thief can cut fabric straps to steal **your pedal cycle**, this is not **immovable**.

9

LOCK THE FRAME

You need to lock the **pedal cycle** frame with an **approved lock** directly to an **immovable** object. If **you** only lock the wheel, a thief doesn't need to break to a lock to take the **pedal cycle**.

10

OUTSIDE YOUR HOME

You can't leave **your pedal cycle** locked up outside within walking distance of **your home** for more than 1 hour. This includes in or on a vehicle, or within **your** front garden.

11

PROOF OF OWNERSHIP

The onus is on **you** to demonstrate ownership. The easiest way to do this is to take photos of the receipts, or save copies of e-receipts.

12

SOLD SECURE

We only accept Sold Secure rated **pedal cycle** locks. Whilst **pedal cycles** under £1,500 can use a Silver rated, we always recommend a Gold or Diamond lock for all **pedal cycles**. Any **pedal cycle** over £1,500 must use a Gold or Diamond lock.

13

UNATTENDED

If a thief can ride off with **your pedal cycle** without **you** noticing or intervening, **you** are not attending to it. **You** should either be riding, or holding **your pedal cycle** when out and about.

SECTION 4 – PERSONAL ACCIDENT

WE WILL COVER YOU FOR:	WE WILL NOT COVER YOU FOR:
